Important Information

The information in this document forms part of the Product Disclosure Statement ('PDS') for the Touchstone Index Unaware Fund dated 23 October 2023. You should read this information together with the PDS before making a decision to invest into the Fund.

This additional information is general information only and does not take into account a person's personal financial situation or needs. Before investing, you should obtain financial advice tailored to your personal circumstances.

Capitalised terms used herein and not otherwise defined are defined as set forth in the PDS.

1. About Bennelong Funds Management Ltd

No additional information has been incorporated by reference.

2. How the Touchstone Index Unaware Fund works

Glossary

Administrator means Citigroup Pty Limited (ABN 88 004 325 080).

Asset Value means the aggregate gross value of all assets in the Fund.

Benchmark means the S&P/ASX 300 Accumulation Index.

Business Day means any day except any weekend or Australian national public holiday.

Corporations Act means the Corporations Act 2001 (Commonwealth) and its amendments.

IDPS means an Investor Directed Portfolio Service.

Net Asset Value at any time means the Asset Value less the liabilities at that time.

Quarter means each three month period from 1 April, 1 July, 1 October and 1 January or as otherwise determined by the Responsible Entity.

Unit means a Unit in the Fund.

Unitholder means a client who has ownership of Units in the Fund.

Valuation Time means any time the Net Asset Value is determined.

AML/CTF obligations

As part of anti-money laundering and counter-terrorism financing responsibilities required by legislation, the Responsible Entity, the Investment Manager and the Administrator may request that a potential investor or Unitholder provide any information it reasonably requires to verify the identity of the investor or Unitholder, the identity of any underlying beneficial owner of Units, or the source or destination of any payment to or from the Fund.

If an investor does not provide such information or delays in doing so, the Responsible Entity may not be able to accept an application for Units, refuse to accept an application for Units or suspend payment of withdrawal proceeds payable to a Unitholder. If an application for Units is not accepted for this reason, the Responsible Entity may hold application monies in an applications bank account until the required information is received. Application monies are held for a maximum period of one month commencing on the day the Responsible Entity receives the application monies and will be returned (without payment of interest) to the source of payment after this period.

By subscribing, an investor consents to the disclosure by the Fund and the Administrator of any information about them to regulators and other parties upon reasonable request, in connection with money laundering and other regulatory matters, in any jurisdiction.

Withdrawal restrictions

The Responsible Entity may pro-rata withdrawal requests received on any Business Day to ensure that no more than 25% (or such percentage as the Responsible Entity may determine) of the value of Units in the Fund is withdrawn on any Business Day.

The Constitution of the Fund permits the Responsible Entity to suspend withdrawals (freeze withdrawals) for a reasonable period ('Suspension Period') in certain situations, including situations which impact on the effective and efficient operation of a market

for an asset of the Fund. An investor's withdrawal request lodged during a Suspension Period is deemed to be received by the Responsible Entity immediately after the end of that Suspension Period.

If the Fund is illiquid (as defined in the Corporations Act), withdrawals from the Fund will only be possible if the Responsible Entity makes a withdrawal offer in accordance with the Corporations Act. Under the Corporations Act, a fund is illiquid if it has liquid assets (generally cash and marketable securities) that account for less than 80% of the value of the Fund. The Responsible Entity is not obliged to make withdrawal offers.

Income distributions reports

Details relating to any tax-free or tax-deferred components, imputation credits or capital gain components for all distribution payments made during the year will be forwarded to Unitholders shortly after the end of each financial year.

Income payments

Income distributions must be paid by either of the following methods:

- direct transfer to a nominated Australian bank account; or
- reinvestment to purchase additional Units.

Investors need to complete the appropriate section in the Application Form to elect their choice. If there is no notification of method of payment on the Application Form (or subsequent notification), income distributions will be reinvested.

There is no charge applied to reinvested income distributions. The issue price that will apply to Units from such reinvestment will be the unit price before application of the buy/sell spread after distribution. Reinvestment will be effected on the first Business Day after the close of each distribution period.

Regular reporting

Unitholders will be provided with the following reports:

- application and withdrawal confirmation statements;
- Unitholder statements, monthly;
- audited annual reports (and, if applicable, half-yearly financial reports and continuous disclosure notices) via our website;
- income distribution statements, half-yearly; and
- tax statements, annually.

Your rights

Your rights as a Unitholder in the Fund are governed by the Constitution of the Fund and by legislation. They include the right to:

- receive distributions (where applicable);
- receive copies of accounts and other information for the Fund;
- attend and vote at Unitholder meetings;
- receive your share of distributions if the Fund is terminated;
- transfer Units to any other person, subject to the Responsible Entity's right to refuse such a transfer; and
- pass Units to any surviving joint holder by will or otherwise to your estate.

You do not have the right to participate in the management or operation of the Fund.

Investing through an IDPS

Investors investing in the Fund indirectly via an IDPS do not themselves become investors in the Fund, and accordingly have no rights as a Unitholder. If you are an indirect investor, generally the relevant IDPS operator acquires the rights of a Unitholder. Unitholder rights include the right to attend Unitholder meetings, to make withdrawal requests, receive and reinvest distributions and participate in termination proceeds. The offer document for your IDPS should have further details.

Your rights and liabilities will be governed by the terms and conditions of the relevant IDPS, which you should read carefully prior to directing the relevant operator to invest in the Fund. Investors investing in the Fund indirectly via an IDPS are entitled to rely upon the complaint resolution procedures set out in section 8 of the PDS. Indirect investors complete application forms for the IDPS, not the Fund, and receive reports from their operator, not the Responsible Entity. Enquiries should be directed to that operator.

Minimum investment and withdrawal requirements may not always be relevant to indirect investors because the IDPS operator may invest on behalf of a number of indirect investors. Indirect investors may also incur fees and expenses applicable to the IDPS, as well as the Fund's fees and expenses. The tax information in this PDS does not specifically cater for indirect investors.

Authorised agent

You may appoint an agent to act on your behalf in relation to your investment in the Fund. We will generally act in accordance with your agent's instructions, other than where our risk procedures apply to the contrary, to help protect the security of your account.

Your agent's authority starts on the day the notice of the authority is received. It continues until the day we receive written advice from you terminating that authority. If you appoint a company as your agent, any director of that company or employee authorised by the agent can act under your agent's authority. Likewise, if you appoint a partnership as your agent, any of the partners can act under that authority. The Responsible Entity may vary the powers of your agent or cancel their authority at any time.

Related party arrangements

BFML is a wholly owned subsidiary of Bennelong Funds Management Group Pty Ltd ('BFMG'). BFMG provides operational support to its fully owned subsidiary BFML. BFMG is a minority shareholder in Touchstone. BFMG provides services such as distribution, marketing and administrative support to Touchstone under a services agreement. BFMG receives a fee from Touchstone for providing these services. All transactions between BFMG, BFML and Touchstone are on arm's length terms.

3. Benefits of investing in the Touchstone Index Unaware Fund

Benefits of investing in a managed investment scheme

Investing in a managed investment scheme can offer a number of benefits, including:

- increased purchasing power – the size of a managed investment scheme means it can generally buy and sell assets at a lower cost than an individual investing directly;
- investment opportunities – managed investment schemes give you the opportunity to access a range of assets that you may not normally access as an individual investor; and
- professional investment management – your money is managed by a team of professionals who use their resources, experience and specialist skills to make the investment decisions on behalf of all investors in the Fund.

4. Risks of managed investment schemes

No additional information has been incorporated by reference.

5. How we invest your money

Investment guidelines and policy

In order to achieve the risk/return objectives of the Fund, a variety of strategies are employed in a portfolio of primarily Australian listed companies shares and cash. The main investment guidelines of the Fund are outlined below.

Authorised investments of this Fund are:

- securities;
- cash and cash equivalents; and
- exchange traded derivative contracts.

The Fund will not invest in stocks with a market capitalisation below \$300 million at the time of initial investment. Should an existing holding fall below this threshold, the Investment Manager will reassess the investment at that time.

Investment universe

The companies within the portfolio are primarily selected from, but not limited to, the S&P/ASX 300 Index. The Fund may invest in securities expected to be listed on the ASX.

The Fund may also invest in securities listed or expected to be listed on other exchanges where such securities relate to ASX-listed securities.

Cash limits

The cash limit is flexible but will not typically exceed 20% of the total portfolio.

Risk management and exposure limits

Tracking error will typically be between 3% and 12% on ex-ante (expected returns) basis. The Fund's maximum individual stock weighting is 10% of the portfolio. The Investment Manager may from time to time temporarily exceed the exposure limits of the Fund, particularly during periods of market volatility, to allow for holdings in excess of this limit where the increase in value of the underlying security is due to market movement.

Derivatives

The Fund may only invest in exchange traded derivatives.

Labour standards, environmental, social and ethical considerations

The Investment Manager considers environmental, social and governance (ESG) factors (including labour standards, environmental social or ethical considerations) as part of its investment decision-making, in the belief that these factors can have an impact on company valuations and their financial performance. The Investment Manager further believes that improved ESG factors can lead to stronger profitability and better aligns management with shareholders for long-term value creation.

It incorporates inclusion of socially responsible investment (SRI) screens and ESG considerations in its due diligence processes; promotes ESG considerations and transparency in line with its investment beliefs; and monitors ESG factors in existing investments.

The Investment Manager uses data from ESG data provider Institutional Shareholder Services (ISS), along with data from other sources, in assessing the ESG qualities of existing and potential investments, as well as to cross check to its own assessments.

ISS data and reports are also used for ongoing monitoring of investees' ESG performance and to assess the fund's ESG measures relative to the broader universe.

ESG considerations are included in the investment process as follows:

- Environmental – whether the practices a company uses to

- generate its products or services are sustainable;
- Social – how a company treats the people who create and consume its products or services;
- Governance – how well a company aligns with and delivers for its shareholders.

The investment process begins with a broad universe of stocks, which are then ranked as part of the QARP (Quality at a Reasonable Price) process. Each company is given a proprietary Quality Score overall, and ESG is one of the components of this score, using the ISS Performance Score methodology. The Investment Manager also augments the ISS Performance Score list with its own proprietary ESG research.

The ESG rating of each stock is a materially higher-weighted component of the stock's overall Quality Score: a company with good ESG practices will have a higher Quality Score, while a company with poor ESG practices will have a lower Quality Score.

The QARP ranking process is a trade-off between quality and medium-term expected return, resulting in companies with strong expected returns and strong Quality Scores ranking at the top of the list. As such, a company with very strong expected returns and average ESG performance can outrank another company with better ESG performance and negative expected returns.

The QARP ranking then becomes an input into the construction of the portfolio and research prioritisation for the investment team. Companies with improving QARP rankings (which can include those with improving ESG performance) are viewed favourably. However, the extent to which ESG standards and ESG considerations will be considered in the QARP process will vary at the discretion of the Investment Manager, and in some cases may not be included in the consideration of any particular investment decision.

6. Fees and costs

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website (moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

Additional explanation of fees and costs

All fees and costs in the 'Fees and costs summary' below are calculated with reference to the relevant costs incurred during financial year ended 30 June 2023.

Fees and costs summary

Touchstone Index Unaware Fund

Type of fee or cost	Amount	How and when paid
Ongoing annual fees and costs		
Management fees and costs The fees and costs for managing your investment	0.90% p.a.	The management fee component of the management fees and costs is calculated and accrued daily and payable within 21 days of the end of the month from the Fund's assets. Indirect costs are not applicable to this Fund.
Performance fees Amounts deducted from your investment in relation to the performance of the product	0.00% p.a.	This fee is only payable where the Fund's return (before management fees and expenses) outperforms the return of its Benchmark by more than 2% p.a.
Transaction costs The costs incurred by the scheme when buying or selling assets	0.00% p.a.	Transaction costs are deducted from the assets of the Fund. They are recovered as they are incurred and reflected in the Unit price. They are disclosed net of amounts recovered by the buy-sell spread.
Member activity related fees and costs (fees for services or when your money moves in or out of the scheme)		
Establishment fee The fee to open your investment	Nil	Not applicable
Contribution fee The fee on each amount contributed to your investment	Nil	Not applicable
Buy-sell spread An amount deducted from your investment representing costs incurred in transactions by the scheme	The current buy spread is +0.20% of the investment amount. The current sell spread is -0.20% of the withdrawal amount.	Charged and paid into the Fund when you invest in, or withdraw from, the Fund. The spread is reflected in the application and withdrawal prices.
Withdrawal fee The fee on each amount you take out of your investment	Nil	Not applicable
Exit fee The fee to close your investment	Nil	Not applicable

Member activity related fees and costs (fees for services or when your money moves in or out of the scheme)

Switching fee	Nil	Not applicable
The fee for changing investment options		

Management fees and costs

Management fees and costs of the Fund as set out in the PDS are the additional fees or costs that an investor incurs by investing in the Fund rather than by directly investing in the assets. This includes components such as management fees, expenses and indirect costs.

Management fee

The Responsible Entity is entitled to a management fee of 0.85% p.a. of the Net Asset Value of the Fund, which is included in the management fees and costs amount of 0.90% p.a. in the 'Fees and costs summary'. The management fee is calculated and accrued daily and payable within 21 days of the end of the month from the Fund's assets. As at the date of this PDS, the management fee component covers Responsible Entity fees and investment management fees.

Expenses

All expenses properly incurred by the Responsible Entity in connection with the Fund (including the establishment of the Fund) or in performing the Responsible Entity's obligations under the Constitution are payable or can be reimbursed out of the Fund. These expenses include ordinary expenses such as administration, custodial, accounting, registry, production of offer documents, audit, legal, government charges, taxation advice, adviser, filing, postage, courier, faxing, photocopy, telephone and printing expenses. Extraordinary expenses such as litigation or Unitholder meetings (if applicable) are also included.

There is no limit in the Fund's Constitution on the amount of expenses that may be reimbursed out of the Fund. However, the Responsible Entity currently chooses to cap the amount of expenses recoverable in each year at 0.05% p.a. of the Net Asset Value of the Fund. This is the amount charged to the Fund during the last financial year and it is included in the 'Management fees and costs' figure in the 'Fees and costs' table.

The Responsible Entity reserves the right to recover expenses incurred in any income year above the cap in a later income year subject to the 0.05% p.a. of Net Asset Value expenses recovery cap being met.

The Responsible Entity also reserves the right to increase the capped amount of expenses, or remove the cap entirely, in future. In case of an increase, the Responsible Entity will give 30 days notice to Unitholders.

Indirect costs

In general, indirect costs are any amounts that directly or indirectly reduce the returns on the Units that are paid from, or the amount or value of, the income or assets of the Fund (including an underlying investment of the Fund). Indirect costs are reflected in the Unit price of your investment in the Fund.

The indirect costs component of the management fees and costs amount in the 'Fees and costs summary' is 0.00% p.a. of the average Net Asset Value of the Fund.

The Responsible Entity has a policy in place that contains information on how indirect costs are estimated. If you require more information on this policy, please contact the Responsible Entity.

Performance fee

In addition to the management fee, a performance fee may be payable to the Responsible Entity in respect of the Fund. The fee is only payable where the Fund's return (before management fees and expenses) exceeds the performance of its benchmark by more than 2% p.a. (outperformance). The performance fee is set at 10% of that outperformance. The performance of the Fund is reset against the benchmark plus 2% p.a. ('Performance Objective') at the beginning of each Quarter and is assessed each Quarter as to whether or not the Fund's performance exceeds the Performance Objective in the previous Quarter.

The fee is calculated at each Valuation Time (which will generally be at the close of each Business Day, but may be any other time the Responsible Entity determines) whether as a negative accrual or as a positive accrual and is paid quarterly. The Unit price is reflective of accrued performance fees. Any net negative accrual of the performance fee is notional only and will not impact Unit Prices. A net positive accrual of the performance fee will impact unit prices as a liability of the Fund to the Responsible Entity. An accrued performance fee will only be payable when the Fund's return exceeds the Performance Objective at the end of the quarter and the Fund's return exceeds the Performance Objective since inception (High Water Mark). At the end of the Quarter, if the Fund's total return has not exceeded the Performance Objective and is not above its High Water Mark, the performance fee will reset to zero. The Responsible Entity intends to pass the full amount of the performance fee onto the Investment Manager.

Past performance is not a reliable indicator of future performance and future performance cannot be guaranteed. The performance fee in the "Fees and costs" table is based on the average of performance fees charged by the Fund over the last five years.

The performance fee is based on the performance of the Fund from time to time and as such the performance fee may vary from the estimate of the performance fee in the fee table. For example, it may be nil in one year or significantly more than the amount disclosed in the fee table.

Performance fee example

Assuming an investment of \$50,000, and that the Fund outperforms the Hurdle and the High Water Mark at the end of the performance period by the percentages in the table below, the following performance fees would be payable for the outperformance:

Performance against the Hurdle of the Touchstone Index Unaware Fund	\$ Performance fee attributable to an investment of \$50,000
+2% p.a.	No performance fee payable
+4% p.a.	\$100
-2% p.a.	No performance fee payable

Note: The management fee and performance fees are based in part upon unrealised gains (as well as unrealised losses) and such unrealised gains and/or losses may never be realised.

Differential fees

Subject to the Corporations Act and the Constitution of the Fund, the Responsible Entity may negotiate lower or different fees with, or pay rebates to, certain investors that are wholesale clients as defined in the Corporations Act.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage.

Transaction costs incurred as a result of Unitholders coming into and going out of the Fund may be recovered by way of the buy/sell spread charged to investors. Other transaction costs are additional costs to Unitholders that are deducted from the assets of the Fund. Such costs are recovered as they are incurred and reflected in the Unit price.

The total gross transaction costs incurred by the Fund for the financial year ending 30 June 2023 were approximately 0.12% p.a. as a percentage of the Fund's average Net Asset Value for that period.

The total net transaction costs incurred in the previous financial year as set out in the 'Fees and costs summary' are shown net of any amount recovered by the way of the buy/sell spread charged to investors, and as a percentage of the Fund's average Net Asset Value in that period. These costs were approximately 0.00% p.a.

Transaction costs may vary, as the turnover in the underlying assets may change substantially as investment and market conditions change, which may affect the level of transaction costs not covered by the buy/sell spread. Further, there are highly variable drivers upon which such transaction costs are dependent.

Buy/sell spread

The buy/sell spread is an additional cost to you and is an adjustment to the Unit price. It represents a contribution to the estimated transaction costs (such as brokerage) incurred when assets are bought and sold by the Fund.

The current buy spread is +0.20% of the investment amount. The current sell spread is -0.20% of the withdrawal amount. This charge is levied to investors applying for Units or withdrawing Units and is retained in the Fund.

For example, an investment of \$50,000 would incur a buy spread of \$100 and a withdrawal of \$50,000 would incur a sell spread of \$100.

The application of a buy/sell spread means that transaction costs for investor-initiated transactions are allocated to the investor initiating the transaction, rather than being spread across the whole Fund.

The buy/sell spread is reviewed on an annual basis to ensure it reflects up-to-date costs of acting on investor initiated transactions.

There is no buy/sell spread on distributions from the Fund that are re-invested.

We may vary the buy/sell spread from time to time and prior notice will not normally be provided to you. Updated information will be posted on our website (bennelongfunds.com).

If buy and sell spreads are charged and represent only a portion of the Fund's transaction costs incurred during a financial year, the balance of the Fund's transaction costs will be borne by the Fund from the Fund's assets without any recovery from individual investors. If buy and sell spreads charged exceed the Fund's transaction costs during a financial year, the balance of the buy and sell spreads will be retained by the Fund.

Goods and Services Tax ('GST')

All fees and expenses referred to in the PDS and this Section 6 are quoted on a GST inclusive basis less any reduced input tax credits available to the Fund (refer to Section 7 of this Booklet). The benefits of any tax deductions are not passed on to Unitholders. Please refer to Section 7 for further information on tax.

Administration fees

The Responsible Entity may enter into arrangements to pay administration fees to IDPS operators in connection with the listing of this Fund on their investment menus. This fee is paid by the Responsible Entity and not by the Fund. It is not payable out of the assets of the Fund and is not a separate additional charge to investors.

Alternative forms of remuneration

We may provide alternative forms of remuneration which include professional development and sponsorship to financial services licensees, authorised representatives, and master trust or IDPS operators. Where such benefits are provided, they are payable by the Responsible Entity and are not an additional cost to you. We will not pay any remuneration to advisers if it is prohibited by law.

Other fees and costs

These may include additional fees and costs that apply to investors accessing the Fund through a master trust or wrap account. We may make payments to master trusts or wrap account operators out of the fees we receive.

7. How managed investment schemes are taxed

General

The following taxation information is of a general nature and should not be relied upon by investors. The information provided is based on applicable Australian tax laws as at the date of this Additional Information Booklet.

As taxation consequences can only be determined by reference to investors' particular circumstances, investors should seek independent professional advice in relation to their own particular circumstances before investing in the Fund.

The taxation information below provides a guide for Australian resident investors only.

Tax position of the Fund

The Fund is a resident of Australia for taxation purposes and will determine net income annually at 30 June.

Generally, no Australian income tax will be payable by the Fund, on the basis that:

- where the Fund is an Attribution Managed Investment Trust ('AMIT'), all taxable income is intended to be attributed to investors for each income year (see below); or
- where the Fund is not an AMIT, investors are presently entitled to all of the Fund's distributable income.

The Fund may derive franking credits from the receipt of franked dividends. The eligibility of the Fund to distribute franking credits is subject to certain conditions such as the holding period rule. An investor's individual circumstances will also be relevant in determining whether an entitlement to franking credits exists.

In the case where the Fund makes a loss for tax purposes, this loss cannot be distributed to Unitholders. It may be available for recoupment by the Fund against net income in future years, subject to certain conditions.

The Fund has made a capital account election for the purposes of the managed investment trust regime under Australian income tax law. This election means gains and losses on the disposal of certain assets (such as shares in companies and units in unit trusts, rights and options over such assets but excluding assets that are derivatives, foreign exchange or any other investments that are subject to the 'financial arrangement provisions') are subject to capital account treatment.

Tax position of Australian resident investors

Distributions

Taxable income earned by the Fund, whether attributed (for an AMIT), distributed, retained or reinvested, can form part of the assessable income for investors in the year of entitlement or

attribution. After the Fund's year-end, investors will be issued with an annual statement detailing the composition of the distributions they have received in respect of that year.

Generally, an investor's entitlement to net income for any year, including amounts reinvested by investors, will form part of an investor's assessable income and should be included in the investor's tax return for the year in which the entitlement or attribution arises.

Foreign income

Where the Fund pays foreign tax in respect of income or gains from a foreign investment, you may be entitled to receive a foreign income tax offset ('FITO'). You will usually include the foreign income and the FITO in your assessable income and may be eligible for a tax offset for all or part of the FITO. The amount of FITO will be detailed in the tax report provided to you.

Disposal of Units

A taxable capital gain or loss may arise from the disposal of an investment in the Fund and may form part of an investor's assessable income. The taxable gain or loss may be treated as a capital gain or loss or as ordinary income, depending on the investor's particular circumstances.

If the taxable gain is treated as a capital gain, individuals, trusts and complying superannuation funds may be entitled to a capital gains tax discount in relation to the disposal of Units where the Units have been held continuously for 12 months and other requirements are met. Companies are not entitled to this discount.

The Fund may distribute non-assessable amounts which are generally not subject to income tax. Broadly, the receipt of certain non-assessable amounts may reduce the cost base of the investor's investment in the Fund. If the investor has no cost base the amounts may trigger a taxable capital gain.

AMIT regime

The Responsible Entity has elected to apply the AMIT rules to the Fund.

Under the AMIT rules, the Fund is deemed to be a 'fixed trust' for taxation law purposes that can rely on specific legislative provisions to make a yearly adjustment to reflect under-or-over distributions of income. As a result, the Fund's income will be 'attributed' to investors.

Australian resident investors will be subject to tax on the income of the Fund which is attributed to them under the AMIT rules. The tax payable (if any) depends on the investor's individual tax profile and applicable tax rate.

The amount attributed to investors will be advised in an AMIT Member Annual Statement ('AMMA Statement').

The AMMA Statement will set out the amount which has been attributed to an investor (and where relevant, its components) and other relevant tax information.

If an investor disagrees with the Responsible Entity's attribution of income, the investor can object to that attribution and substitute the Responsible Entity's determination with their own. If as an investor you decide to take this course, it is important that you obtain professional tax and legal advice. You must contact the Responsible Entity before notifying the Commissioner of Taxation.

Tax File Number ('TFN') and Australian Business Number ('ABN')

It is not compulsory for you to quote your TFN or ABN. You may quote an ABN instead of a TFN if you are making an investment in the Fund in the course of a business or enterprise carried on by you.

If you fail to quote an ABN or TFN or claim an exemption, the Responsible Entity may be obliged to withhold tax at the top marginal rate (including Medicare levy) on gross payments (including distributions of income) to you.

The Responsible Entity's reporting obligations

The Government has implemented the OECD Common Reporting Standard ('CRS') which requires the Responsible Entity to collect information from Unitholders and report information in relation to certain Unitholders with foreign residencies to the Australian Tax Office ('ATO'). That information may be provided by the ATO to foreign tax authorities in jurisdictions that have adopted the CRS. Similar obligations relating to the collection and reporting of Unitholder information are imposed on the Responsible Entity as a result of Australia enacting legislation that relates to the Foreign Account Tax Compliance Act ('FATCA'). FATCA is US tax law which was enacted for the purpose of improving tax information reporting regarding US persons in respect of their offshore investments to the United States Internal Revenue Service.

GST

The GST information provided in this section is of a general nature only.

GST will apply to the management fee and performance fees. Fees and costs included in Section 6 are quoted on a GST inclusive basis less any reduced input tax credits available to the Fund. GST will also apply to most other Fund expenses.

Generally, the Fund cannot claim full input tax credits for GST incurred on expenses, but the Fund may be entitled to reduced input tax credits for any GST paid in respect of these expenses.

8. How to apply

Payments via BPAY®

You can also make your application payment via BPAY using the following details:

- BPAY Biller Code: 266775
- BPAY Customer Reference Number (CRN): this will be provided via email shortly after the application has been submitted.

® Registered to BPAY Pty Ltd ABN 69 079 137 518

Note you are not able to make payments by BPAY if you are a New Zealand investor.
